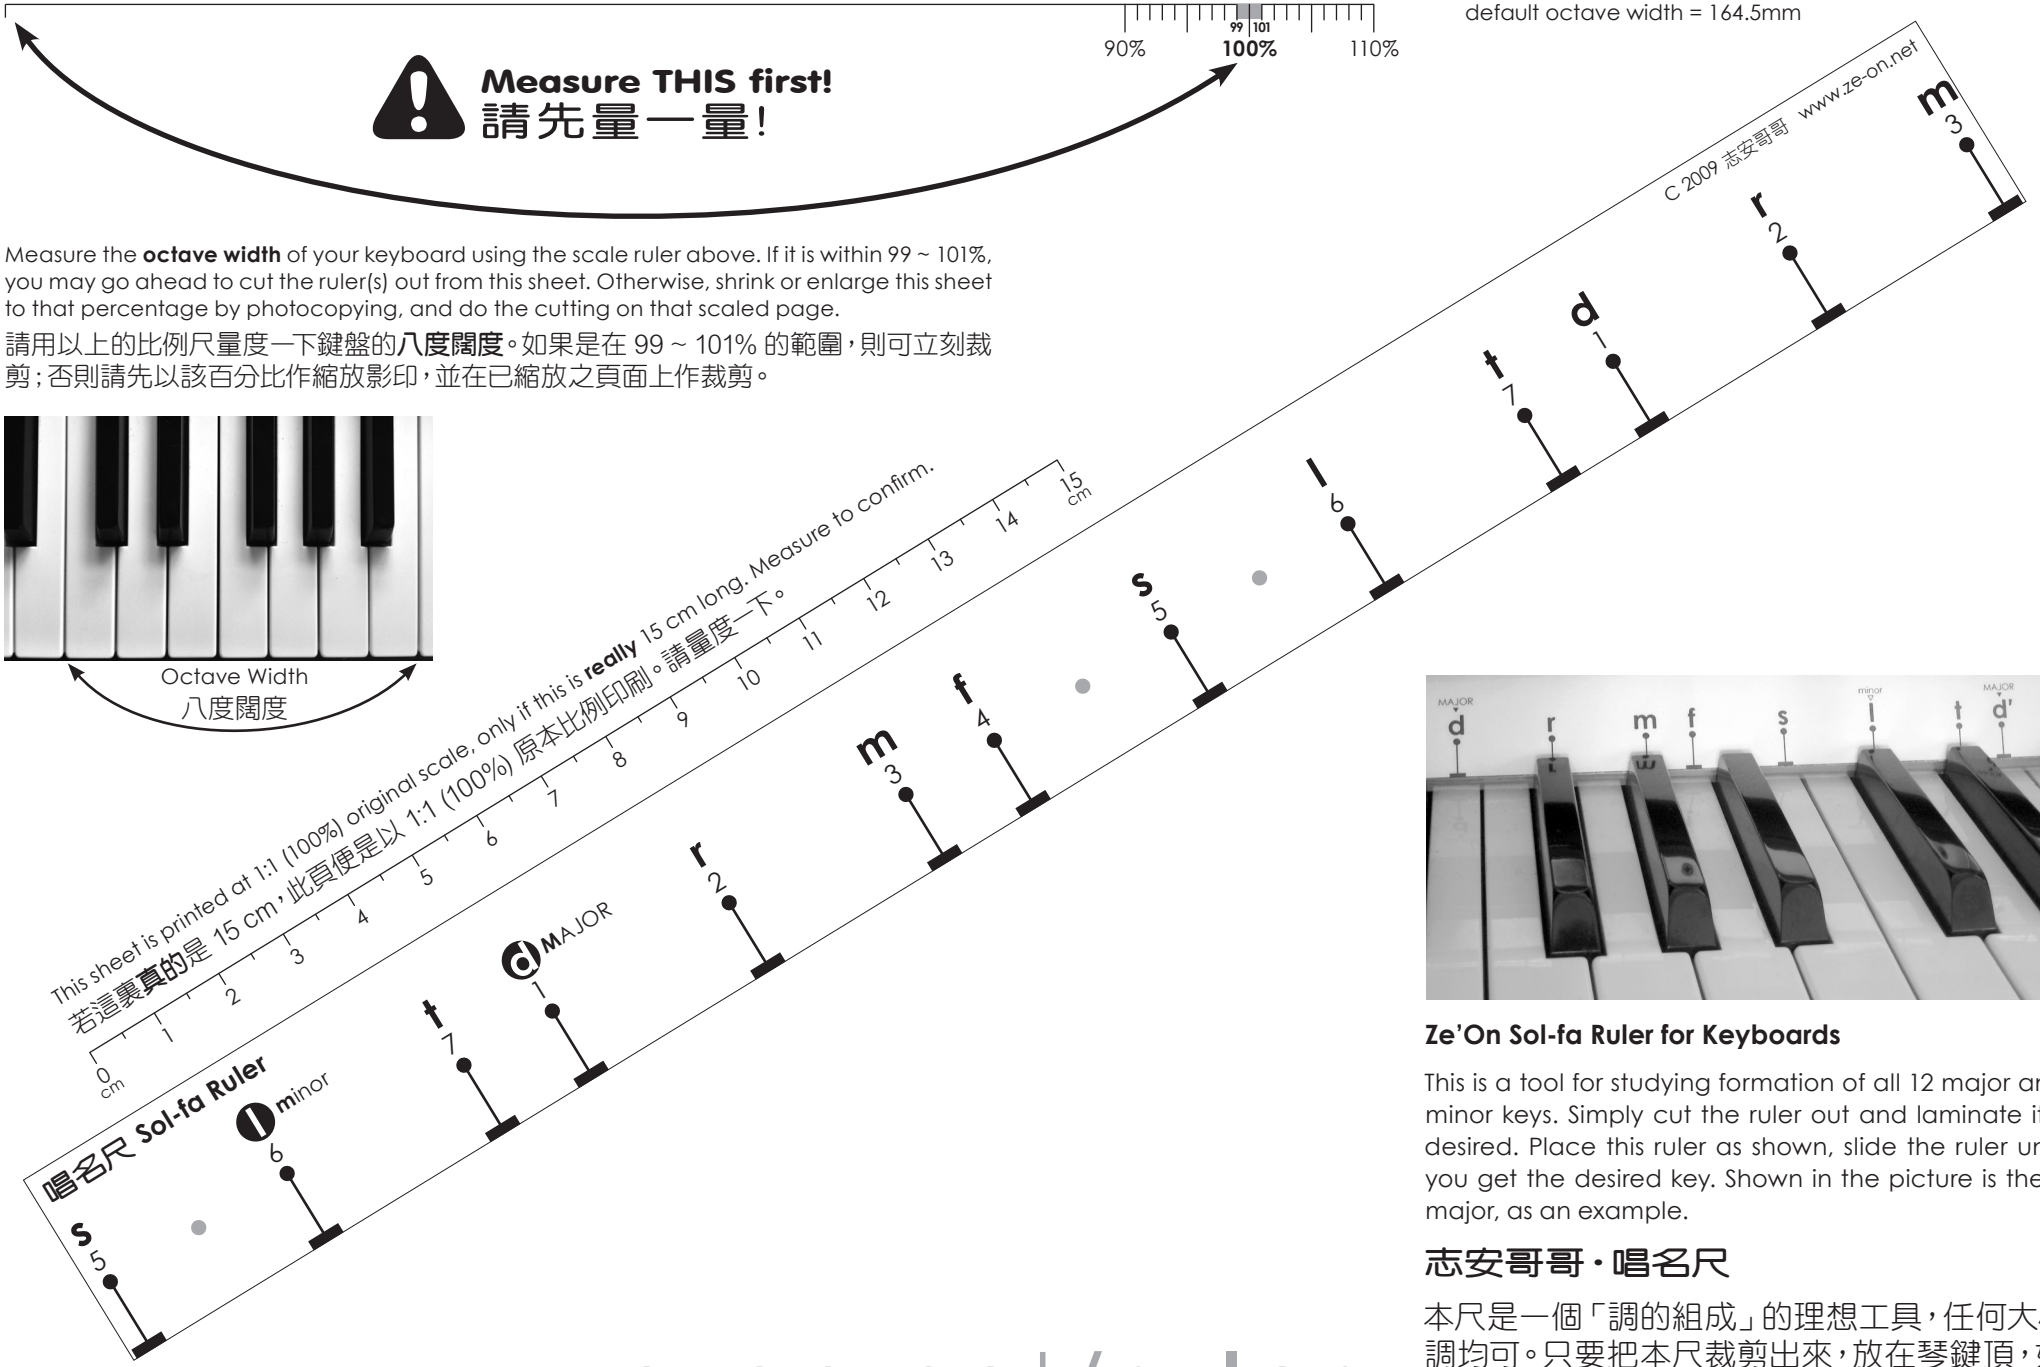
Measure THIS first!
請先量一量!

Measure the **octave width** of your keyboard using the scale ruler above. If it is within 99 ~ 101%, you may go ahead to cut the ruler(s) out from this sheet. Otherwise, shrink or enlarge this sheet to that percentage by photocopying, and do the cutting on that scaled page.

請用以上的比例尺量度一下鍵盤的**八度闊度**。如果是在 99 ~ 101% 的範圍，則可立刻裁剪；否則請先以該百分比作縮放影印，並在已縮放之頁面上作裁剪。

default octave width = 164.5mm



Ze'On Sol-fa Ruler for Keyboards

This is a tool for studying formation of all 12 major and minor keys. Simply cut the ruler out and laminate it if desired. Place this ruler as shown, slide the ruler until you get the desired key. Shown in the picture is the E major, as an example.

志安哥哥・唱名尺

本尺是一個「調的組成」的理想工具，任何大小調均可。只要把本尺裁剪出來，放在琴鍵頂，如圖所示，左右滑動，直至找到你所要的調為止。
